

# 2009 Course Summary Sheet

## ■ Bachelor of Health Science (PU43)

With majors in: Nutrition and Dietetics, and Podiatry

Welcome to the School of Public Health.

Please direct all initial enquiries to the Undergraduate Administrative Assistant, Room O-D611, Ph: 3138 3368, Email: [sph.studentcentre@qut.edu.au](mailto:sph.studentcentre@qut.edu.au)

### *How to use this Course Summary Sheet*

- a) Read the **Important Enrolment Information** section below carefully
- b) Refer to the course structure/course enrolment program for your major

The Bachelor of Health Science has majors in: [Nutrition & Dietetics](#), and [Podiatry](#). You must enrol according to the requirements of the major which you have been offered, as set out below.

This document will assist you with the selection of your study program and completion of your enrolment. Other useful information can be found on the Student Services website [studentservices.qut.com](http://studentservices.qut.com), which can also be accessed via the Online Enrolment portlet.

Although we assist and offer academic advice, it is ultimately your **responsibility** to correctly enrol as per the standard structure outlined on this Course Summary Sheet. Failure to do this may result in financial and academic penalties, and you may not be able to graduate as planned. If you are concerned, contact the coordinator of your major, or the PU43 Course Coordinator to make an appointment to discuss your enrolment; contact details for the coordinators are listed in this document.

**Location:** Kelvin Grove campus

**Course Duration:** 4 years full-time

**Total credit points:** 384

**Standard Credit Points/Full-time Semester:** 48

**Course Coordinator:** Melinda Service

**Subject Area Coordinators:**

[Nutrition & Dietetics](#) Dr Danielle Gallegos

[Podiatry](#) Dr Lloyd Reed

**Please ensure that you have enrolled in both Semester 1 and Semester 2 (that is, for a whole year), unless you are a continuing student due to complete your course at the end of semester 1.**

### **IMPORTANT ENROLMENT INFORMATION**

**Student Responsibility:** You are responsible for ensuring that your enrolment is completed correctly and that your enrolment status is accurate at all times. Students should attempt to follow the standard course progression as outlined in the course summary sheet. You are expected to abide by the university's due dates when submitting enrolment or credit applications and should ensure that your address details are up to date. Failure to do any of the above may result in financial and academic penalties, and difficulties in unit selection.

**Commencing Students:** You are required to enrol as specified in the University's letter of offer in regards to your course, major, attendance mode and type, location and class codes.

**Enrolment:** You are expected to enrol as per the standard course structure as contained in this Course Summary Sheet. However, you may enrol in at least three units per semester, according to your major, as set out in this Course Summary Sheet. A fourth unit may be substituted with a unit from another course/major, taking into account any prerequisite requirements. However, such substituted units may not be taken into account when graduation eligibility is being determined. **You should seek academic advice before substituting units.**

**Minors:** A minor refers to 48 credit points of a coherent body of study concentrating on a specific area of knowledge. Where appropriate examples of suggested minors are provided, you may, in consultation with the Course Coordinator, suggest other minors. It is to be noted that a minor must not have more than 12 credit points at an introductory level.

**Overloads:** It is not expected that you should overload, i.e. undertake more credit points than the standard semester load (48 credit points or 4 units). Overloads are not permitted in the first semester of study without Course Coordinator approval. If your circumstances require you to overload you should be aware of the possible course progression and timetable problems.

**Underloads:** It is not expected that you should underload, i.e. undertake less credit points than the standard semester load as outlined in this course summary sheet. If, however, your circumstances require you to undertake fewer units, you are permitted to underload by 12 credit points (1 unit). For those of you who receive Austudy, underloading may affect your entitlements. Note that taking an underload may lead to course progression and timetable problems.

**Attendance Mode and Class Code:** You are required to enrol in the attendance mode and type as specified in the University's letter of offer. It is your responsibility to ensure correct location and class codes are entered on your enrolment as incorrect or missing information may lead to enrolment difficulties.

Units with class codes of EXTS and EXT are only available for EHS (Emergency Health Services) and NA80 students respectively, with the exception of PUB644. **Students who seek to enrol in a unit in these modes will be removed from the external mode by the School.**

#### **Class Codes**

**INT** Classes are held at Kelvin Grove, Gardens Point or Carseldine campus

**EXT** The unit is offered externally via Teaching and Learning Support Services (TALSS)

#### **Location Codes**

**KG** Unit is taught on the Kelvin Grove campus

**GP** Unit is taught on the Gardens Point campus

**CA** Unit is taught on the Carseldine campus

**Timetabling of Units:** A clash-free timetable is guaranteed for the standard programs of study only. In the event that an elective unit clashes with a core unit you are required to substitute an appropriate elective unit which does not clash with the core unit. Students following a non-standard enrolment program may need to substitute units or take an underload as a result of timetabling clashes. **Note that part-time mode is a reference to credit points load and does not indicate attendance type (e.g. evening classes). You should note that units may be timetabled between 8am and 10pm Monday to Friday. Specific units may require attendance outside these times (e.g. weekends).**

**Assumed Knowledge:** QUT now specifies assumed knowledge, rather than subject prerequisites for applicants for entry to QUT. The curricula for some units are based on this assumed knowledge and if you do not have it, you may find these units difficult. If you feel that you do not have the assumed knowledge and you have not taken the suggested course prior to enrolment, then you should contact the Course Coordinator or the Academic Affairs Officer.

**Prerequisite Units:** You are expected to complete prerequisite units as outlined in the Course Summary Sheet before proceeding to subsequent units. You must fulfil all prerequisite requirements before you are able to enrol in professional practice/placement/practicum units.

**Limits on grades of 3:** A new policy concerning grades of 3 comes into effect from 1 January 2009 (QUT MOPP C/9.2). With effect from this date grades of 3 will no longer be considered a conceded or low pass but will be classified as a **fail** grade. Any grades of 3 awarded **prior to 1 January 2009** will retain the conceded pass status and will be counted for graduation purposes up to the maximum number of grades of 3 permitted for your course. Grades of 3 incurred in units that commence after 1 January 2009 will not count towards your degree. For 2009 the maximum number of pre-2009 grades of 3 permitted is 4. Please note any provisional credit (advanced standing) awarded for QUT units undertaken prior to 2009 based on a grade of 3 will be honoured, subject to there being no breach of the maximum number of grades of 3 ruling for the course overall.

**Designated units:** These are units which are deemed to be critical in a student's progress in the course. Such units include professional experience units, units requiring the development of particular skills and units requiring certain personal qualities. With respect to these programs, a designated clinical unit must be successfully completed prior to the student enrolling in its subsequent clinical unit. At the end of each year students who have failed to achieve a satisfactory level of performance in a designated unit will be eligible for exclusion. A Faculty Academic Board may exclude the student or place them on probationary enrolment. A satisfactory level of performance in a designated unit is a grade of 3 (low pass) or higher, or S - Satisfactory, where appropriate.

**Change of Course/Major and Transfer Policy:** You must complete at least one semester of study in your course of offer before applying for an intra-faculty transfer to another Health Faculty course/major. You will be allowed to transfer to another Faculty of Health course only if you (a) meet the minimum entry requirements which applied for that course/major in the most recent admission period **and** (b) there is a quota place available.

Undergraduate students wishing to upgrade their ranking score at the completion of one year's study should be aware that, for some courses/majors, you may be required to maintain a full-time year load (e.g. 96 credit points). You should seek admission advice if considering this option. (Note that units with incomplete results and any units for which a student has received an exemption or academic credit do not count toward the full-time year load).

Advanced Standing Applications: You should apply for advanced standing by the due date as delays may cause enrolment difficulties. You should enrol in the standard program until the success of any advanced standing application is known. You should seek advice from your Course Coordinator before altering your enrolment program after receiving advanced standing or exemptions.

Requirements for Placements: You must hold a **Blue Card** to undertake any unit which involves possible contact with children, including any required clinical studies. You should allow 12 weeks for the Commission to issue the card. Podiatry students should therefore apply before the end of year one for the commencement of year two studies. Nutrition and Dietetics students should apply during Semester 1, year 3 for the commencement of Semester two, year three studies. For more information on the blue card and how to apply please visit the following site: [blue card](#).

Students are required to undergo **Hepatitis B vaccination** prior to undertaking any clinical placement. Hepatitis B vaccinations (3 inoculations) are done over a period of six months. This means that you need to prepare for your clinical placements well in advance. Please see the School of Public Health website for more information.

Nutrition and Dietetics Placements: It is also a **QH requirement** that all students complete this orientation package before undertaking any placement which involves QH. The package is completed [on line](#).

Podiatry Clinical Placements: You are also required to have a current **Senior First Aid Certificate** before you begin your placement. You may be required to attend clinical placements at times outside of the first and second semester periods. More information will be provided by the Course Coordinator.

### **Commencing Students**

Commencing students have been pre-enrolled in their units for the year. Any student not entering the first year of the course or who has been given credit for one or more of the listed units should ensure that after discussion with the Course Coordinator they make an application for academic credit and amend their enrolment accordingly.

## NUTRITION AND DIETETICS (NUD)

**All initial enquiries:** Undergraduate Administrative Assistant, Room O-D611, Ph: 3138 3368, Email: [sph.studentcentre@qut.edu.au](mailto:sph.studentcentre@qut.edu.au)

**Subject Area Coordinator:** Dr Danielle Gallegos, Room O-D624, ph 3138 5799, email [danielle.gallegos@qut.edu.au](mailto:danielle.gallegos@qut.edu.au)

**Important Enrolment Advice:** You are expected to enrol as per the standard structure outlined on this Course Summary Sheet, and are responsible for ensuring your unit selection is correct. If you do not do this, you may incur financial and academic penalties and may not be able to graduate as planned.

**Professional Recognition:** Students who complete the Nutrition and Dietetics major will be eligible for membership of the Dietitians Association of Australia.

### STUDENTS COMMENCING IN 2008 and 2009- ENROLMENT PROGRAM

Full-time Course Structure		Credit Points	Location Code	Class Code	Contact Hrs/Wk	Prerequisite Units
<b>Year 1, Semester 1</b>						
SCB111	Chemistry 1	12	GP	INT	5	
PUB104	Australian Health Care Systems	12	KG	INT	3	
PUB251	Contemporary Public Health	12	KG	INT	4

\* Students must seek approval from the Unit Coordinator and have a GPA of 5 or above. Approval is contingent on having an agreed academic supervisor in areas of mutual interest. It is the responsibility of the student to contact a lecturer and arrange supervision before enrolling in this unit.

\*\* External enrolment in these units is restricted to PU43 Nutrition & Dietetic students only.

- **PODIATRY (PDY)**

**All initial enquiries:** Undergraduate Administrative Assistant, Room O-D611, Ph: 3138 3368, Email: [sph.studentcentre@qut.edu.au](mailto:sph.studentcentre@qut.edu.au)

**Subject Area Coordinator:** Lloyd Reed, Room O-B647, Ph: 3138 5623, Email: [lreed@qut.edu.au](mailto:lreed@qut.edu.au)

**Important Enrolment Advice:** You are expected to enrol as per the standard structure outlined on this Course Summary Sheet, and are responsible for ensuring your unit selection is correct. If you do not do this, you may incur financial and academic penalties and may not be able to graduate as planned.

**Professional Recognition:** Students who complete the Podiatry major will be eligible for membership of the Australian Podiatry Association, The Queensland Podiatry Association and the Sports Medicine Australia. Through mutual recognition of qualification graduates are eligible to register in all states and territories of Australia and in New Zealand.

#### Elective List

Students are able to select elective units from either the one area of study or from a variety of study areas as listed below.

- Elective units are subject to prerequisite requirements, credit points and availability of the unit. You may, with the approval of the Subject Area Coordinator or Course Coordinator, select other electives.
- Units are subject to availability and timetable considerations.
- Electives must be at the advanced level unless an introductory level unit is required as a prerequisite. (Credit will only be granted if the student is undertaking the advanced unit).

<u>Exercise Studies</u>		<b>Credit Points</b>	<b>Location Code</b>	<b>Class Code</b>	<b>Contact Hrs/Wk</b>	<b>Prerequisite Units</b>	<b>Unit Level</b>
HMB271	Foundations of Motor Control, Learning and Development (Sem 1)	12	KG	INT	4	LSB131, LSB231	Advanced
